STOCK MARKET IN PASSIVE CONDITION

Volume of Dealings Fell Away to Midsummer Dullness.

MARKET DULL AND STEADY

Prices of Few Stocks Were Moved by Individual Causes, but Changes in General List Were Trivial and Shifting.

NEW YORK, May 15.—The passive con-cition of the speculation was not changed cition of the speculation was not changed to-day. The volume of the dealings fell away to what is proverbially known as midsummer culiness. This condition of the stock market is by no means abnormal at this season, due to the shifting course of money resources and the uncertainties of the crop season. Overwhelming importance is attached to the fate of the corn crop this year, especially in view of the high prices of that cercal, owing to last year's shortage and the present prospect for only a part of a winter wheat crop. As the corn crop is more than in the ground, the chances of the tuture are almost too uncertain even for speculative ventures. The present waiting attitude of the market is, therefore, entirely reasonable and natural. So far as the situation is strained and unnatural in any degree, it is due to the recent efforts of peoils and speculative plungers to stir up an unwarranted activity in the speculation and to build up prices to unstable heights. The money flurry last week and on Monday were the corrective influence and has resulted in the present conditions. The dullness is accentuated, of course, by the additional element of uncertainty in the threatened strike of anthrected in the correction in the present conditions. Most of the price movements of any consequence in the correction of any consequence in the correction of the price movements of any consequence in the correction of the price movements of any consequence in the correction of the care of the price movements of any consequence in the correction of the additional clement of uncertainty in the present conditions.

lost of the price movements of any conuence in to-day's stock market might traced to the influence of the acquisity of the Chicago, Indianapolis and alsville jointly by the Southern Railey and Louisville and Nashville. In spite of strengthening of competing lines by deal, Illinois Central was strong, its ville and Nashville was distinctly vy, possibly on realizing, and the early land for Southern Railway soon died. The Chicago, Indianapolis and its ville stocks shares were decidedly erish, relapsing violently after adding. A drop in Chicago and Eastern lois, which has been discussed as a sible outlet for Louisville and Nash-1, reflected disappointment. The stock market yesterday was even duller than on the day before. Transactions were very few and fluctuations were within the narrowest range. The opening was fairly firm with an increase in activity in Southern Railway on what was said to be renewed bull operations by the Western crowd. The common went up to 38 and the preferred to 95, but these prices were shaded before the day was over.

prices were shaded before the day was over.

Upon the announcement that the Southern Railway and the Louisville and Nashvill had acquired the Monon road the stock of that road went up to 79 and afterwards sold off to 78. Union Pacific was also strong and the buying seemed to be good, but there was not much fluctuation in price. Most of the transactions were made between 195 and 105½.

CHEMICAL ADVANCES.

Among the Industrials Chemical was in the lead. The directors of the Virginia-Carolina Chemical Company met yesterday and declared a dividend of 1½ per cent. on the common stock which, if continued, will put that stock on the 5 per cent, basis. The dividend is payable June 1st. The books crose May 24th and reopen June 2d. Chemical opened strong and sold above 74, but it was stronger at the opening than upon the announcement of the increased dividend which had been already discounted. There was one sale of the preferred at 134%, but it afterwards sold down to 133½.

dated Tobacco Company Is sent out from Louisville:

"A man well informed in the tobacco trade says the independent plug and smoking factories are making more money than ever before. The Continental has studied both the leaf and that for the products. The consequence is that the independent manufacturer knows exactly what his material will cost him, and by buying exclusively on the auction markets he can get his crop about two cents a pound cheaper than the Continental buyers. The Continental maintains buyers at great expense in the country in order to control the market, but it has to pay higher prices on the farm than on the auction market. The independent factories are multiplying, and when managed by men of experience the profits are large. The 60 per cent, dividends paid by the Henry Weissinger Company are a sample of what the outside factories with established brands have done."

MONDAY, MAY 19, 1902, beginning at 5 o'clock P. M.,

MONDAY, MAY 19, 1902, beginning at 5 o'clock P. M., eight most beautiful and desirable VILLA or SUBURBAN HOME SITES, on Dill's Avenue, adjoining Chestnut Hill and Highland Park, containing from about 2½ to 3½ acres each. The elevated and dry situation of these lots, coupled with the fine view of and accessibility to the city and the fact that in the near future each of these parcels can be profitably further subdivided into town lots, combine to render the offering an unusually attractive one—in fact, the feature of the real estate market. The well water in this section is proverbially good, and sowerage is available at moderate cost. The neighborhood is too well known for its excellence to require any commendation and the improvements going on suggest the certainty of largely improved values in the near future, circumstances not to be overlooked by purchasers. These lots which are not further from the Capitol Square than is Richmond College, can be reached by private vehicles over excellent highways and also by the Highland Park Street Railway, which is within a few squares from the most distant of these lands, while Brookland Station on the C. & O. Railway, is about as close. Mr. A. F. Mosby, on Chestnut Hill will take pleasure in showing this property at any time to any one calling at his house.

TERMS: One-third cash, and the balance at six and twelve months for notes with interest added and secured by a deed of trust.
